

HOME DELIVERY

About Hastings Riverlands dairy products:

Hastings Riverlands dairy is situated at Huntingdon on the Mid north coast of NSW on the Eggert family's certified organic farm. Jimmy Eggert started operation of the factory in 2023 at just eighteen years of age. He is passionate about sustainable and regenerative farming practices and the importance of quality food produced with integrity and passion. What sets his products apart from many others is that he is the producer (farmer), the processor, the marketer and the delivery driver!

His milk and yoghurt is processed using gentle farming and manufacturing methods to maintain it's nutritional integrity. The milk is unhomogenised and the yoghurt is pot set with only two ingredients – milk and cultures.
