

# Grass-fed meat, eggs & dairy

Direct from the farmer to you

Quality products  
grown using  
organic principles

0423 222998

Our family runs a certified organic farm at Redbank where we produce organic eggs (Oxhill Organics) and milk (Norco Organic). All the animals on our farm benefit from the organic farming methods that we use, including being rotated around diverse, nutritious pastures. Our cows are solely pasture fed, while the diet of our pigs and chickens is supplemented by organic grain. Studies show that grass fed meat is higher in the healthy Omega 3 fat. This is attested to in the great taste of our meat. Once ready, the chickens are processed at a certified processing facility and the pigs and cows are butchered at a local butcher. As a customer, you have a choice of either individual cuts or wholesale meat (butchered to your specifications).

## Prices:
